

R&D Map Food.NRW – From ideas to solutions

Innovation in products and processes is one of the most important factors for success in future markets. Universities and research institutes serve not only as source of inspiration but also as partner to the economic system.

Networking competencies for innovative solutions - true to this motto we at Food-Processing Initiative created this unique service catalog with support of the State Government. The R&D Atlas is the showcase of research competences in the fields of agriculture, food processing and nutrition from NRW.
